

HYPERDRIVE USB-C HUB FOR IPAD PRO 2018

World's 1st USB-C Hub specifically designed for the 2018 iPad Pro.
Patent pending removable grip that secures 6-in-1 hub onto iPad Pro.

Simultaneously connect HDMI, USB-C, microSD, SD, USB-A and 3.5mm audio . All while charging at full speed through HyperDrive. Patented soft grips that secures HyperDrive onto the iPad Pro without interfering with the Apple Smart (Keyboard) Folio. Grips are removable to work with other iPad Pro cases or devices.

Replace all other dongles with HyperDrive. Precision milled aluminum enclosure color matched to Silver and Space Gray iPad Pro. The same HyperDrive works with both 11" and 12.9" iPad Pro

SANHO-HYPERDRIVE

HYPERDRIVE USB-C HUB FOR IPAD PRO 2018

We wanted HyperDrive to feel like a natural extension of the 2018 iPad Pro with similar product lines, thickness, right angled edges and rounded corners. As the 2018 iPad Pro only has a single USB-C port for the HyperDrive to latch on, we had to come up with an innovative solution to secure HyperDrive onto the iPad Pro.

The end result is a sleek, minimalist design that perfectly matches the 2018 iPad Pro with almost the same thickness, with removable soft grips that secures the HyperDrive onto the iPad Pro without interfering with its or the Apple Smart (Keyboard) Folio functionality. The Worldwide Patent Pending removable grip design also allows HyperDrive to be used with other iPad Pro cases or other USB-C devices and allows for future accessories like an extension USB-C cable to the HyperDrive..

We decided to go with popular output ports (HDMI, microSD, SD, USB-A) most requested by users. Although HyperDrive takes up a USB-C port on the iPad Pro, it also returns a USB-C port as well, which supports USB-C 5Gbps data and up to 60W power delivery pass through charging through HyperDrive.

SPECIFICATIONS

Output:

- HDMI supporting 1080p@60Hz, 2K@60Hz, 4K@30Hz
- USB-C data (USB 3.1 Gen 1, 5Gb/s) and Power Delivery (max 60W)
- micro SD (UHS-I 104MB/s)
- USB-A data (USB 3.1 Gen 1, 5Gb/s)
- 3.5mm Audio Jack (USB 2.0 Audio, 48KHz, 16-bit Audio Input/Output, TRRS)

Input: -1 x USB-C (USB 3.1 Gen 2, 10Gb/s)

DC/DC Efficiency: Up to 96%

Device Operating Temperature: Less than 48°C / 118°F

Enclosure: CNC aluminum available in Silver and Space Gray

Dimensions: 3.66" x 1.2" x 0.35" / 93 x 30.5 x 9mm

Weight: 1.2oz / 34g
